### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen G. Baxter (Reg. No. 32,884) on April 15, 2003.

The application has been amended as follows:

Cancel claim 12.

2. Claim 19 and 21-26 directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 11 and 13-18, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 11 and 13-18 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

3. The following is an examiner's statement of reasons for allowance:

Applicant's arguments are persuasive.

A multi layer printed wiring board with conducting layer formed on plasma etched insulating layer, wherein the insulating layer comprises two non compatible resins

having different plasma etching rates and the plasma etching results in the structural difference, with the prior art, of a particular surface roughness, is not suggested.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
